The Finger Lakes Ontario Watershed Paddlers' Club was founded by a group of paddlers who wanted to provide a local club committed to serving the needs of a diverse paddling community, from those seeking the solitude of the back country to those craving the crashing of the waves. Our goal is to spread the rewards of paddling through educational programs and opportunities, provide interest specific services to paddlers and encourage paddlers to meet, learn and teach each other. FLOW members are also dedicated to improving local access and protecting the state of our aquatic environment.
